

Vacation By Horse Back

Riding Monument Valley - Utah

Monument Valley has been the setting for more western movies than any other site in the U.S. Unique sandstone formations and the Navajo Indian Nation define this vast, open desert region.

**Ride this magnificent area with TV host Bill Porter
Starting October 20th 2010**

The Navajo People revere the Horse, they feel as I do there is no better way to show their lands, and culture than by horse. Horse people meeting horse people joining together to see a side of ones lives most do not see. Seeing a culture as it is and bringing that back to be shared by many more.

“Over three years I have been working with the Navajo elders arranging this project. My passion is to share with others the beauty, spirit and culture of the people and of this magnificent land. We will become a part of the Navajo, as we will be on their lands and sharing with them their culture. Our Navajo guides will take us to places most outsiders never get to go. We'll see the best, as I, Bill Porter will be filming for a promotional DVD of the area to promote and enhance the Navajo Nation for the benefit of it's people for generations to come.” Bill Porter sr.
